

PRODUCT OWNER

BENCE L. RACZ

Work Experience

Technologist / Internal Product & Process Developer

Medikemia Zrt. | Szeged, Hungary — 2021 – 2023

- Led company-wide ERP integration: gathered requirements from department heads, translated business needs into technical specs, managed IT team execution.
- Introduced ClickUp and transitioned the team from waterfall to agile — separating roles, enabling task ownership, improving delivery visibility.
- Bridge between product development and production: documented processes, managed trial runs, coordinated factory-line development.

Founder / 3D Artist & Product Developer

3PO 3D | Szeged, Hungary — November 2023 – Present

Freelance 3D product development studio spanning creative services, R&D, and manufacturing — running active client projects alongside an ongoing medical device R&D project.
